

MUHAMAD RAYHAN

Front-End Web Developer

Kab. Tangerang, Banten, Indonesia | +62 856-9209-7048 | m.rayhanoi26@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio: rayhandev.my.id](#)

PROFESSIONAL SUMMARY

Front-End Web Developer specializing in building high-performance, responsive web applications using **React.js**, **TypeScript**, and **Tailwind CSS**. Experienced in cross-functional team collaboration (FE, BE, UI/UX), modern global state management (Redux Toolkit), and AI API integrations (Google Gemini). Passionate about clean code, modular architecture, and delivering intuitive, user-centered digital experiences.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C++

Frameworks & Libraries: React.js (v18 & v19), Redux Toolkit, React Router, TanStack Query, Vite, jQuery

UI, Styling & Animation: Tailwind CSS (v4), Framer Motion, Sass/SCSS, Bootstrap, Responsive & Mobile-First Design

APIs, Tools & Deployment: RESTful APIs, Axios, Google Gemini AI API, Git, GitHub, Vercel, Sharp (AVIF Optimization)

FEATURED PROJECTS

Siap Kerja — AI-Powered Career Platform | *React, Redux Toolkit, Gemini AI, Framer Motion, Tailwind CSS*

[Live Demo](#) • [GitHub](#)

- Collaborated within a cross-functional team (FE, BE, UI/UX) to architect and engineer an interactive career-readiness web platform.
- Integrated Google Gemini AI API to provide personalized career path recommendations and automated skill assessment modules.
- Architected centralized global state with Redux Toolkit and designed fluid micro-interactions with Framer Motion.

Danu Satya — Production Portfolio Website | *React 19, TypeScript, Tailwind CSS v4, Lucide Icons, Vite*

danusatya.my.id

- Engineered and deployed an official production portfolio for a professional Graphic & Motion Designer on a custom live domain.
- Implemented type-safe component architecture using TypeScript and leveraged modern React 19 and Tailwind CSS v4 capabilities.
- Optimized core web vitals and image delivery, achieving instant page transitions and seamless cross-device responsiveness.

Fast React Pizza — E-Commerce Ordering App | *React 18, Redux Toolkit, React Router, Tailwind CSS, Vite*

[Live Demo](#) • [GitHub](#)

- Engineered an interactive food ordering SPA with dynamic cart management, real-time pricing calculations, and order priority logic.
- Implemented global cart state management with Redux Toolkit and multi-step client-side routing via React Router.
- Integrated real-time order tracking with dynamic delivery estimation to enhance end-to-end user checkout experience.

Mading Kampus — Digital Campus Magazine Portal | *JavaScript (ES6), Tailwind CSS, Semantic HTML, Git*

[Live Demo](#) • [GitHub](#)

- Partnered with an academic team to transform campus bulletin boards into a modern digital magazine and announcement portal.
- Built an accessible article reader interface, dynamic category filters, and intuitive publication submission workflows.

TK PAUD Permata — Educational Profile Website | *HTML5, CSS3, JavaScript, Responsive UI, On-Page SEO*

permatabelajar.my.id

- Designed and launched the official website for an early childhood education institution on a live custom domain.
- Structured semantic HTML and on-page SEO metadata, driving local search visibility and generating 20+ admission inquiries monthly.

EDUCATION

Universitas Pamulang — *Bachelor of Computer Science (SI Teknik Informatika)*

September 2025 – Present

GPA: 3.4 / 4.0 • **Organizations:** Active Member of ISC (Informatika Student Club) and IPAS • **Relevant Coursework:** *Tangerang Selatan, Banten*
Web Programming, Data Structures & Algorithms, UI/UX Design

LEADERSHIP EXPERIENCE

Universitas Pamulang — *Class Representative (Ketua Kelas)*

March 2026 – Present

- Acted as primary liaison between faculty lecturers and a cohort of 34 students, coordinating academic schedules and course requirements.
- Organized collaborative study sessions and assisted 15+ peers in resolving academic inquiries, enhancing overall classroom engagement.
