

MUHAMAD RAYHAN

Front-End Web Developer

Kab. Tangerang, Banten, Indonesia | +62 856-9209-7048 | m.rayhanoi26@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio: rayhandev.my.id](#)

PROFESSIONAL SUMMARY

Front-End Web Developer specializing in building high-performance, responsive web applications using **React.js, TypeScript, and Tailwind CSS**. Experienced in cross-functional team collaboration (FE, BE, UI/UX), modern global state management (Redux Toolkit), and AI API integrations (Google Gemini). Passionate about clean code, modular architecture, and delivering intuitive, user-centered digital experiences.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C++

Frameworks & Libraries: React.js (v18 & v19), Redux Toolkit, React Router, TanStack Query, Vite, jQuery

UI, Styling & Animation: Tailwind CSS (v4), Framer Motion, Sass/SCSS, Bootstrap, Responsive & Mobile-First Design

APIs, Tools & Deployment: RESTful APIs, Axios, Google Gemini AI API, Git, GitHub, Vercel, Sharp (AVIF Optimization)

FEATURED PROJECTS

Siap Kerja — AI-Powered Career Platform | *React, Redux Toolkit, Gemini AI, Framer Motion, Tailwind CSS* [Live Demo](#) • [GitHub](#)

- Collaborated in a cross-functional team (FE, BE, UI/UX) to engineer an interactive career-readiness platform with Redux Toolkit and fluid Framer Motion animations.
- Integrated Google Gemini AI API to automate skill assessments and generate personalized career recommendations.

Danu Satya — Production Portfolio Website | *React 19, TypeScript, Tailwind CSS v4, Lucide Icons, Vite* [danusatya.my.id](#)

- Engineered and launched an official production portfolio for a Graphic & Motion Designer on a custom live domain using React 19 and Tailwind CSS v4.
- Implemented type-safe architecture with TypeScript and optimized core web vitals for sub-second loading speeds.

Fast React Pizza — E-Commerce Ordering App | *React 18, Redux Toolkit, React Router, Tailwind CSS, Vite* [Live Demo](#) • [GitHub](#)

- Built an interactive food ordering SPA featuring real-time cart state synchronization with Redux Toolkit and multi-step React Router flows.
- Implemented dynamic priority calculations and real-time order tracking with live delivery estimation.

Mading Kampus — Digital Campus Magazine Portal | *JavaScript (ES6), Tailwind CSS, Semantic HTML, Git* [Live Demo](#) • [GitHub](#)

- Transformed campus bulletin boards into a modern digital portal with dynamic article categories and intuitive publication flows.
- Collaborated with academic peers using Git/GitHub version control, managing 100+ commits and responsive layouts.

EDUCATION

Universitas Pamulang — Bachelor of Computer Science (SI Teknik Informatika) *September 2025 – Present*

GPA: 3.4 / 4.0 • **Organizations:** Active Member of ISC (Informatika Student Club) and IPAS • **Relevant Coursework:** *Tangerang Selatan, Banten* Web Programming, Data Structures & Algorithms, UI/UX Design

LEADERSHIP EXPERIENCE

Universitas Pamulang — Class Representative (Ketua Kelas) *March 2026 – Present*

- Acted as primary liaison between faculty lecturers and a cohort of 34 students, coordinating academic schedules and course requirements.
- Organized collaborative study sessions and assisted 15+ peers in resolving academic inquiries, enhancing overall classroom engagement.
